Recovery for Affected Families

a five-week
program for family members
affected by alcohol or
drug problems

*compassion
for
your
deepest
concerns...*

PROGRAM PURPOSE

All family members are affected by the symptoms of the disease of alcoholism and develop symptoms of their own.

The (RAF) program is designed to help participants to understand the disease and themselves; to learn to live, love and work as a family.

Recovery is possible by dealing directly with the realities of the illness.

PROGRAM CONTENT

The (RAF) program is a non-residential program consisting of 5 weekly 2-1/2 hour sessions.

Each session will include education (film, lecture) and group process.

AFTER-CARE

After-care plans will be designed for each individual family member.

This may include individual, marital and/or family therapy; many will include on-going participation in a recovery support group; or continuous self-help involvement.

COST

Weekly cost for education and group therapy is \$50.00. The 1st additional family member will be \$25.00 and any additional family member will be \$15.00.

A 10% discount will be offered for payment in full.
